

# HYDRAULIC BREAKER

<http://tiny.cc/hydraulicbreaker>

## FEATURES & BENEFITS

- Top quality sound isolated MultiOne breakers are quiet and powerful
- High power-to-weight ratio
- Compact dimensions

The narrow breaker profile enables the breaker to reach into places that other breakers can't. With a minimum of seals and moving parts, the MultiOne hydraulic breaker provides unsurpassed durability and simplified maintenance. It is equipped with a vibration damping system that also attenuates noise emission. MultiOne loader with breaker is a very efficient tool in demolition and refurbishing operations: do the demolition with Multione and breaker, take the debris away with Multione and bucket – very fast and effective. Another benefit of this combination is its compact dimensions: you can go almost anywhere with this unit.

**Note: the floating boom valve on the machine is suggested.**
