SNOW BLADE

http://tiny.cc/snowblade

FEATURES & BENEFITS

- Efficient on larger areas, but compact enough to clear smaller spaces
- Shock absorbing system
- 30° Slewing angle

An excellent tool to quickly clear light or moderate snow from sidewalks and driveways. Equipped with shock absorbing system that allows the blade to trip forward when an obstacle is encountered, saving wear and tear on the blade and MultiOne. It is equipped with a plastic edge that once worn out can be reversed or replaced. The blade can be hydraulically tilted 30° both to the right and to the left comfortably from the driver's seat. It is equipped with supports which can be extended when the attachment is not in use. It can be used also to move light materials such as grains or sawdust. In winter, installed on a MultiOne machine with a fully enclosed cab, it is a winning choice.

Note: the floating boom valve on the machine is suggested.

Model	Width		Blade h	Slewing angle			Blade Width at Max Angle			Weight			Code		
140	140 cm (55 in)		53 cm (2	±30°			121 cm (47.6 in)			121 kg (267 lbs)			C891303		
180	180 cm (71 in)		58 cm (2	2.8 in)	±30°			156 cm (61.4 in)			170 kg (375 lbs)		C891304		
210	210 cm (83 in)		70 cm (27.6 in)		±30°			182 cm (71.6 in)			191 kg (421 lbs)		C891305
