

LOG GRAPPLE

<http://tiny.cc/loggrab>

FEATURES & BENEFITS

- Useful attachment for fencing and forest work
- Independent arms operated by two cylinders
- Strong log grab, also for more professional and frequent log handling
- Heavy duty design allows grabbing of bigger tree trunks as well

The heavy duty MultiOne log grapple is a very powerful and flexible tool used to securely grab, lift, and transport harvested logs. The hydraulically powered grapple arms firmly grip the logs, securing them to the lower forks. The design of the grapple accommodates small logs to large tree trunks. Thanks to the high lifting capacity of MultiOne machines, it is possible to perform forest works and to load trucks or trailers, even in inaccessible or hard-to-reach areas.

Model	Width	Teeth length	Opening Angle	Weight	Code
Log grapple	100 cm (39.4 in)	101 cm (39.8 in)	68°	120 kg (265 lbs)	C890580
